product!*

Special ZoomText feature keys for instant access to...

- Start ZoomText.
- Display the ZoomText toolbar.
- Zoom in and out to any magnification level.
- Activate color, pointer and cursor enhancements.
- Launch ZoomText's Finders to quickly locate and navigate documents, web pages, and email.
- Toggle ZoomText's speech on and off and adjust the reading rate.
- Launch AppReader and DocReader for automatic, hands-free reading.
- Assign features keys to your favorite Internet and multimedia commands.

Easy to See

Large-print keycaps are clear and easy to read. Typing is faster and more accurate – with decreased eyestrain and fatigue.

“One-Touch” Access

With 18 dedicated feature keys you can instantly start ZoomText and access its most important features.

Comfortable to Use

Sleek, high quality design allows for comfortable typing and minimizes discomfort caused by long-term keyboard usage.
