

# Experience Life In HD

## Introducing the revolutionary IBIS HD for low vision magnification

### The IBIS High Definition (HD) video magnifier is a milestone in precision magnification for low vision.

Weighing just 3.3 pounds, IBIS HD is designed from the ground up to provide the sharpest image in the industry when connected to any HD TV or computer monitor (using DVI or HDMI input).

Portable, in seconds you can pack it up and take it with you. The power of IBIS HD is in the camera. The image clarity is unmatched at any magnification level.

### Brought to you by Tagarno

IBIS HD was designed by Tagarno, a Danish company, known throughout the world for their superior camera products with stylish design. Tagarno is the first manufacturer to harness the power of high definition for low vision.

### Complete tasks easier

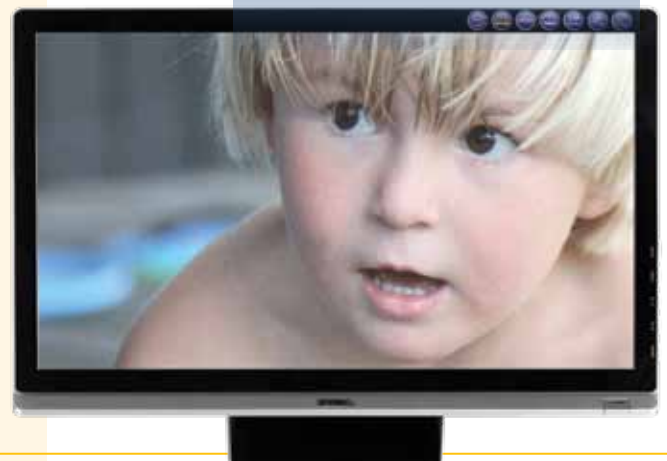

The IBIS HD makes all tasks easier with its easy to reach fingertip controls. Designed to be used at work, school, home, or on the go.

IBIS HD SAMPLE VIEW

*"With IBIS I have more room on my desk for all my paperwork to manage my business. I can work quicker. It is so fluid to bring anything up to size. Even the little stuff is perfectly clear. It is a wonderful change for me. Thank you, IBIS!"*

– Eleanor Thompson,  
Customer

The IBIS HD provides brilliant image clarity, precise and steady, even at the smallest size.
