- Automatic magazine format embossing  
– seamless book printing
- Wireless connectivity  
– onboard wifi, Bluetooth and AirPrint!
- Sound absorbing case  
– makes it the quietest production braille embosser

### Braille Box V5 \$ 15,995

In a braille production environment where speed is essential, you can be assured the Braille Box from Index is a perfect fit! Embossing at 300CPS this double-sided braille embosser quickly produces volumes of material from 11.5"x11" paper, and can even format cut-sheet tabloid-size paper to emboss magazine format automatically. Embossed documents collect in the high capacity output tray, which opens and closes with the touch of a button.

This modern solution for braille production is flexible and works great in any environment! Onboard wifi, Bluetooth and AirPrint connections let you connect and emboss from any number of devices, and an embedded web interface means this embosser works great for users who prefer to manage the embosser over a network.

The Braille Box's stylish case design not only gives it a modern look but was also designed with noise canceling material, making it the quietest braille production embosser around. Compact enough to fit on a table top, the Braille Box is perfect for any braille production environment.

### About Index Braille and V5 Technology

Index is the leading braille printer manufacturer worldwide. For 30 years, the Index brand has meant quality and affordability. Index braille embossers offer the best dot quality, speech feedback, tactile/braille interface and more, at or below the price of competing braille printers.

The new Braille Box V5 offers major improvements over the previous V4 model. After carefully analyzing feedback from users, distributors and service technicians, the Index Braille Box V5 has been redesigned to provide:

- Faster startup time
- Improved paper pickup for faster embossing speeds
- Easy-open output tray - just press the button on the operator panel!
- Additional connectivity options - Bluetooth, AirPrint and onboard wifi
- Improved internal web interface for easier setup, monitoring, service and support
- Onboard braille tables for use with the free Index Direct Braille translator
- Easier firmware upgrades - just connect to the network and use service mode!
- Printer drivers for Windows and Macs
