Emprint™ SpotDot®

Emprint SpotDot Braille embossing & Color Ink
-Emprint SpotDot is the world's only Braille and color Inkjet Printer

Powered by Tiger® Advanced Braille Technology

Create Braille and Graphics using the Tiger® Software Suite (TSS)
• TSS combines Braille translation software with editing options for tactile graphics.
• Tiger Software Suite is a direct add-on for translating documents in MS Word and Excel
• Custom settings, for example the language and format of the translated document, can be saved and recalled.
• Print Preview in Tiger Viewer provides a representative view of the embossed output.
• The Tiger designer allows the user to directly adapt the document.

The latest revision of our Tiger Software Suite will be included when purchasing the ViewPlus embosser.

• Prints Braille with 50 CPS
• The Emprint SpotDot combines a Tiger embossing machine with an HP inkjet printer in one device
• Uses the same paper and ink cartridges as an HP inkjet printer to print with any color
• Easy to use control panel with tactile keys

SpotDot technology means:
• Prints Braille and ink on the same page.
• Black or colored text accompanying the Braille text.
• Variable dot height used to represent differences in color (Haptic Color)
